A world built on the following relationships:

What connects us to life and has us exist as whole

So Above – So below

With Others in the field

Each human is a unique and essential aspect of creation.

Everything is part of everything else

Everything operates on behalf of everything else

Everything is interactive, interrelated, and interdependent/symbiotic, and it with you

You are part of everything and everything is part of you

You operate on behalf of everything and everything operates on behalf of you

Our Values

Unity, Empathy, Harmony

The primary method that the Institute utilizes to live our principles is the regular writing of the 9 templates of the Language of Creation.
